Materials for application:

White spirit.

Basic raw material:

Alkyd resin.

Suitable substrate:

Over Existing finishes (Eggshell Gp 051)

Surface Preparation:

Over Existing finishes (Eggshell Gp 051)

Cleaning of equipment:

Cleaning of equipment in golden solvent.

**Mixing ration(by volume):**

GLAZE	White spirit
100 Parts	25_30 Parts

Application process:

Apply 1 single coats. Work quickly once the glaze coat is of the surface. The important thing is to keep a "wet edge," meaning the section you're working on should not dry before you apply the glaze to adjacent sections. Used a textured roller or a twisted rag. Start at the bottom of the wet glaze coat and roll upward, maintaining even pressure until you reach the top. Repeat the technique.

Drying time:

Drying	25 °C
Dust Free	4hrs
Dry to handle	8 _10 hrs
Hard dry	16 hrs
